HIGH SCHOOL COURSE**EXTRACTS FROM A LETTER FROM
PROF. CLOTHIERIn Which He Gives an Idea of the
Extent of the Course.In view of the interest that is being
shown here regarding the course in
agriculture at the High school to be
given by Prof. R. W. Clothier of the
university, the following extracts from
a letter to Superintendent Scudder are
timely, as they give a good idea of the
purpose and extent of the course."Your letter received. I am glad you take
to the idea of the short course. It is
my intention to give the work in the
form of lectures and require students
to take notes and write the lectures
up with pen and ink and recite upon
them from day to day and pass an
examination at the close of the course.
In short, I will conduct the work ex-
actly as I would in a class room over
here. I will have a library with me
for reference reading, open at all hours.
I may not require the farmers who
take the course to write up the notes
and take the examination, but all
young people of college or high school
age who take it, whether they are in
the high school or not, will be re-
quired to take the notes, recite and
take the examinations. Will have some
apparatus with me but the amount will
be limited. Would be glad if you could
lend a microscope and might call upon
you for a few other things. The lec-
tures in dairying will be on the sub-
ject of home dairying, rather than
creamery butter making, and will con-
sist of a study of the cow's udder,
and manner of secretion of milk, with
conditions influencing it, including
feed; sanitary production of milk and
its care, ripening of cream and butter
making, testing milk, care and selection
of a dairy herd, etc.
Stock judging will consist of a study
of the conformation of beef and dairy
stock, the principles made use of in
judging them and perhaps the charac-
teristics of the leading breeds. The
judging will not extend to any other
kind of stock this year, but if the
course is repeated next year it will
take the other kinds of stock. The
course in horticulture will consist of
lectures on propagation of trees, se-
lecting orchard sites, pruning, care and
management of an orchard and the
picking, packing and marketing of the
fruit, or if preferred, I will give the
whole course on citrus fruits alone."
In conclusion Prof. Clothier states
that he will give evening lectures in
Mesa also and hopes that arrange-
ments may be made so that a lecture
can be given in each town on alternate
nights.**CAME HOME SICK.**Jas. C. Goodwin returned Thursday
afternoon from Goldfield, Nev., to

ready it has been found necessary to
construct another building, the pres-
ent one being too small for the busi-
ness. A barley crusher with a ca-
pacity of thirty tons a day has just
been received and will be put in op-

**REDDEN RANCH WILL
BE PLANTED TO BEETS**Leased by the Sugar Company Until
Next July.Through a deal made Thursday by
Andrew Nielsen, the acreage of beets
that will be planted under the Tempe
canal this season has been greatly in-
creased. The agent brought together
the Southwestern Sugar and Land
company and Ellingsen Olson. The re-
sult of the meeting was that Mr. Ol-
sen rents to the sugar company the
Redden half section in the Kyrene dis-
trict. The sugar company, it is un-
derstood, will plant the entire ranch
to sugar beets this year. Most of the
half section was planted to beets last
year by Dennie and Reed, and a fine
crop was grown.
Mr. Olson but recently purchased
the place from J. E. Redden and the
consideration in the rental transaction
amounted to almost the sale of a small
place. About three thousand dollars
changed hands on the deal.**LOST**—Gold locket and gold cuff but-

AND GLAD TO BE HERE**He Gave Lessons For Tempe and
Left the Soldiers' Home.Despite the fact that local papers
recently announced the serious illness
of Lieutenant Jack Campbell at the
Soldiers' Home in California and pre-
dicted his death at any moment, Mr.
Campbell dropped off of yesterday
morning's train to Tempe. Though not a well man by
any means Jack is worth a good many
dead men. His arrival here was some-
what of a surprise to his friends. He
has been at the Soldiers' Home for
some little time but could not get rid
of a longing for Tempe. Finally that
feeling grew so strong that he packed
up and took the first train out. He
was as tickled as a boy to get back

to be honored by having as the guest
of our city our beloved president. It
very rarely happens that a city in a
territory has the privilege of enter-
taining the nation's chief executive.In acknowledgment of the great
honor conferred upon Phoenix, I
would ask that all of its residents
join in giving President Taft a most
cordial welcome. That all may par-
ticipate in this welcome, I earnestly
request that all business be sus-
pended from the time the presidential
party arrives until its departure. To
further show our loyalty and patriot-
ism, let us display our national flag
from all business houses and resi-
dences.**LLOYD B. CHRISTY,**

Phoenix, Ariz., Oct. 6, 1909.

BRIDGE CONSTRUCTION.Sealed proposals addressed to the
Board of Supervisors of Maricopa
county, Arizona Territory at Phoenix
Arizona, and endorsed "Proposals for
the construction of a wagon and foot
bridge across the Salt river at the foot
of Center street south from the city
of Phoenix, Arizona," will be received
by the clerk of said board at the of-
fices of said board in the court house
of Maricopa county at Phoenix, Ari-
zona, until 2 o'clock, local time, in the
afternoon of Saturday, the 6th day of
November, 1909, and will be publicly
opened by said Board of Supervisors
at a meeting to be held on that day,
or at the first meeting thereafter. The
work for which said proposals are in-
vited is to provide for the proper and
complete construction of said bridge
in every detail, and it is understood
that the contractor agrees to furnish
all and everything necessary for such
construction, notwithstanding any
omissions in the drawings or speci-
fications. The specifications and ac-
companying drawings hereinafter re-
ferred to are intended to correspond
with and be illustrative of each other.
Any part of the work which may
be only mentioned in one or repre-
sented in the other shall be executed
the same as if it had been fully de-
scribed in both. Said bridge is locat-
ed as follows: Commencing at station
No 3 plus 75.00 feet, said point
being in the south half of section
seventeen, T. 1 N., R. 3 E. of the G.
& S. R. B. & M. line, county of Mari-
copa, Territory of Arizona, and ex-tending to station No. 23, plus 75.00
feet, where the causeway com-
mences and extends in the same
straight line as the bridge to station
No. 34, plus 40.00 feet, a point in
the north half of section twenty, T. 1
N., R. 3 E. G. & S. R. B. & M. line,
county of Maricopa, Territory of Ari-
zona, said station points being ac-
cording to profile of the site of pro-
posed bridge over Salt river on Cen-
ter street extension at Phoenix, Mari-
copa county, Arizona, as surveyed by
Mr. Gus A. Streitz, county surveyor,
January 4, 1909. Said bridge to be
constructed of reinforced concrete in
accordance with plans and specifica-
tions prepared by Mayberry and
Parker and furnished by said Board
of Supervisors; which plans and spe-
cifications, together with said profile
of the site of said proposed bridge
may be obtained upon application at
the office of said board upon the
payment therefor of the sum of \$4.In submitting his bid the contractor
shall give a lump sum figure for the
bridge and causeway completed in
accordance with the plans and speci-
fications above referred to. In view
of the possibility that the size and
depths of the footing for the abut-
ments, caissons and retaining wall
may be changed from those given on
the drawings, the contractor in sub-
mitting his bid shall give a price per
cubic yard for the concrete in place,
which price shall include form work,
excavation and back-filling. In case
such changes are made this change
shall be the basis for any credits or
extras to be allowed for this class of
work. In addition to the above the
contractor shall submit a price per
cubic yard in place for concrete
ripap as specified for the north river
bank protection, which figure shall
include excavation and refilling for
further extension of the same. He
shall also submit a price per pound
for steel in place and shall state total
length of time required to perform and
complete said work. All bids must
be upon blanks for that purpose fur-
nished by said Board of Supervisors.
All bids shall be accompanied by a
certified check in a sum equal to ten
per cent of the amount of said lump
bid and drawn upon some responsible
bank, and shall be made payable to
the Board of Supervisors of Maricopa
county, Arizona; said certified checks
or cash deposited with the bids in
lieu of checks, will be held by said
board until all of the bids have been
canvassed and the contract awarded
and signed. The return of said check
or cash deposited with the bid to the
bidder to whom the contract shall be
awarded is conditioned upon the ap-
pearance of said bidder within ten
days after receiving notice of such
award and executing a contract with
said county of Maricopa for the work
so awarded, and giving a bond, said
bond and contract to be satisfactory
to said Board of Supervisors, and said
bond to be conditioned upon the faith-
ful performance of such contract in
the penal sum of \$25,000. The price
which said Board of Supervisors shall
contract to pay for the construction
of said bridge shall become due and
payable as follows: Seventy-five (75)
per cent of the work completed ac-
cording to estimates to be furnished
by the engineers in charge of said
work at the end of each thirty days
from the time when the said work of
construction shall begin, and the bal-
ance of the contract price to be paid
at the end of sixty days after said
bridge shall have been fully completed,
all work and materials paid for by
the contractors and the bridge finally
accepted by said Board of Supervi-
sors. All of said payments to be made
in the following manner: Fifty thou-
sand dollars to be paid by the County
of Maricopa and the balance of the
contract price to be paid
by private subscription, including
Indian labor to the amount of \$10,000.
Bidders are required to state in their
bids their individual names and places
of business in full. The said Board
of Supervisors reserve the right to
reject any and all bids.THE COUNTY OF MARICOPA.
By Leo M. Hoghe, Chairman of its
Board of Supervisors.
